PUBLICATION-GRADE HTML5 REPORT

html-report — 11-CDN Interactive Capabilities Showcase

First-page PDF cover and complete heading directory (h1, h2, h3). In print/PDF mode, the sticky navigation bar and interactive form inputs are replaced by static print views.

TABLE OF CONTENTS (ALL H1, H2, H3 SECTIONS)

html-report — 11-CDN Interactive Capabilities Showcase

1. Integrated 11-CDN Stack Directory

1.1 Click Any CDN to Jump to Its Live Showcase Section

2. UI Styling, Iconography & Reactive State Showcase

2.1 Tailwind CSS + DaisyUI + Lucide Icons Showcase

2.2 Alpine.js Declarative Reactivity Showcase

3. Chart.js Theme-Reactive Visualizations Showcase

3.1 Combo Bar & Line Chart (Chart.js)

3.2 Multi-Series Grouped Bar Chart (Chart.js)

4. Mermaid Diagram Showcase

4.1 Theme-Synchronized Architecture Flowchart (Mermaid)

5. Leaflet Geospatial Map Showcase

5.1 Interactive Vector Marker Map (Leaflet + Esri World Street Map)

6. Grid.js Interactive Data Table Showcase

6.1 Sortable, Searchable & Paginated Table (Light & Dark Theme Adaptive)

7. KaTeX Mathematical Typesetting Showcase

7.1 Display & Inline LaTeX Equations (KaTeX)

8. Marked Client-Side Markdown Showcase

8.1 Live Markdown-to-HTML Parsing (Marked)

Markdown Block Rendered by Marked CDN

9. Highlight.js Syntax Formatting Showcase (TypeScript Frontend & Kotlin Backend)

9.1 Frontend Example — TypeScript

9.2 Backend Example — Kotlin

10. CSV-Backed HTML Form & Interactive Search (`example.csv`)

10.1 CSV-Backed Form Highlight — Built Around example.csv

Interactive Skill Showcase

11 Non-Blocking CDNs • 32 DaisyUI Themes • 5 Breakpoints Verified

html-report — 11-CDN Interactive Capabilities Showcase

Live reference showcase of every CDN library integrated into the `html-report` skill. Click any CDN card below to jump directly to its live interactive example.

1. Integrated 11-CDN Stack Directory

1.1 Click Any CDN to Jump to Its Live Showcase Section

Tailwind CSS
Responsive utility grid and breakpoint system (sm, md, lg, xl, 2xl) → Section 2.1

DaisyUI
Semantic component classes + 32 live color-swatch themes → Section 2.1

Lucide Icons
Crisp SVG vector iconography rendered across UI elements → Section 2.1

Alpine.js
Lightweight declarative reactivity (x-data, x-model, @click) → Section 2.2

Chart.js
Theme-reactive canvas charts synced with all 32 DaisyUI themes → Section 3

Mermaid
Theme-reactive architecture & workflow SVG diagrams → Section 4

Leaflet
Interactive CARTO basemap & geospatial markers (zero 403 errors) → Section 5

Grid.js
Sortable, searchable, dark-mode-ready interactive table → Section 6

KaTeX
Fast mathematical & LaTeX formula typesetting → Section 7

Marked
Client-side Markdown rendering with automatic TOC indexing → Section 8

Highlight.js
Syntax highlighting for TypeScript (Frontend) & Kotlin (Backend) → Section 9

2. UI Styling, Iconography & Reactive State Showcase

2.1 Tailwind CSS + DaisyUI + Lucide Icons Showcase

TAILWIND BREAKPOINTS

5 Tiers

sm, md, lg, xl, 2xl verified

DAISYUI THEMES

32 Themes

Live color swatches in navbar

LUCIDE VECTOR ICONS

SVG Crisp

Zero font-loading flash

STANDALONE EXPORT

11 CDNs

Inlined on 1-click download

2.2 Alpine.js Declarative Reactivity Showcase

Interact with the slider or mode buttons below to test live Alpine.js bindings (`x-data`, `x-model`, `x-text`, `@click`):

Active Widgets: 8

Execution Mode

Reactive | Batch | Static

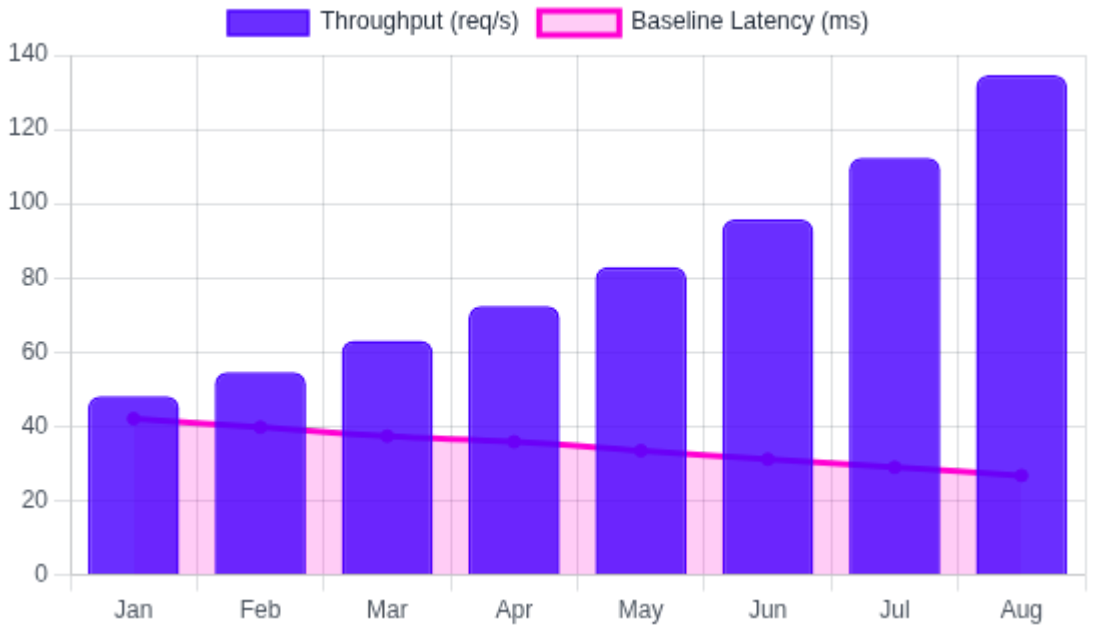

Computed Frame Budget (Reactive)

480 ops/sec

3. Chart.js Theme-Reactive Visualizations Showcase

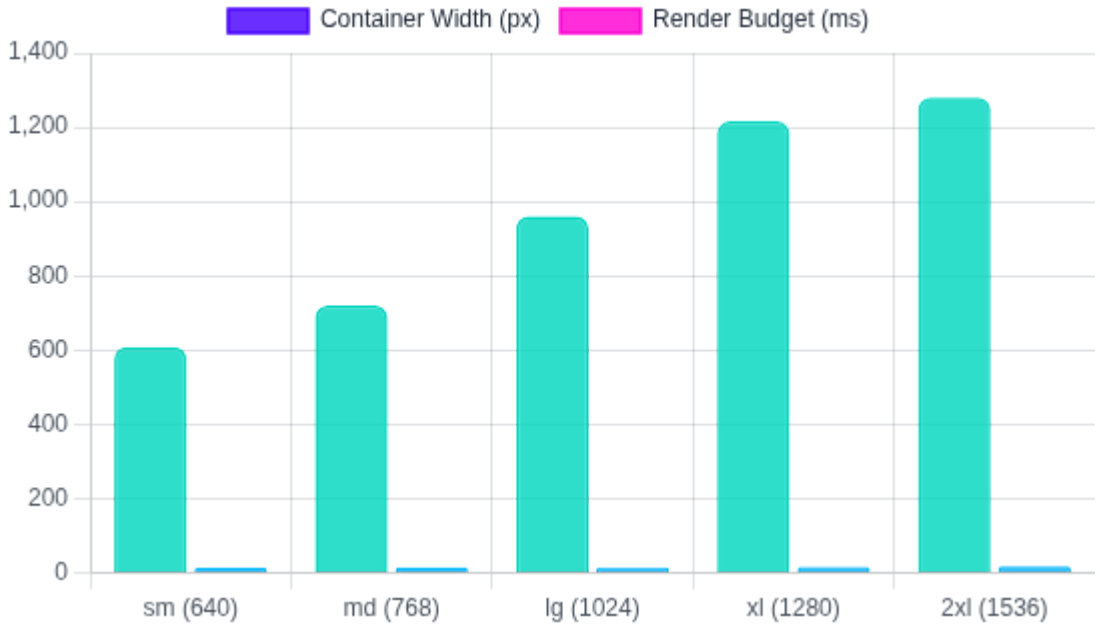

3.1 Combo Bar & Line Chart (Chart.js)

Switch any of the 32 DaisyUI themes in the navbar to watch Chart.js re-color live

3.2 Multi-Series Grouped Bar Chart (Chart.js)

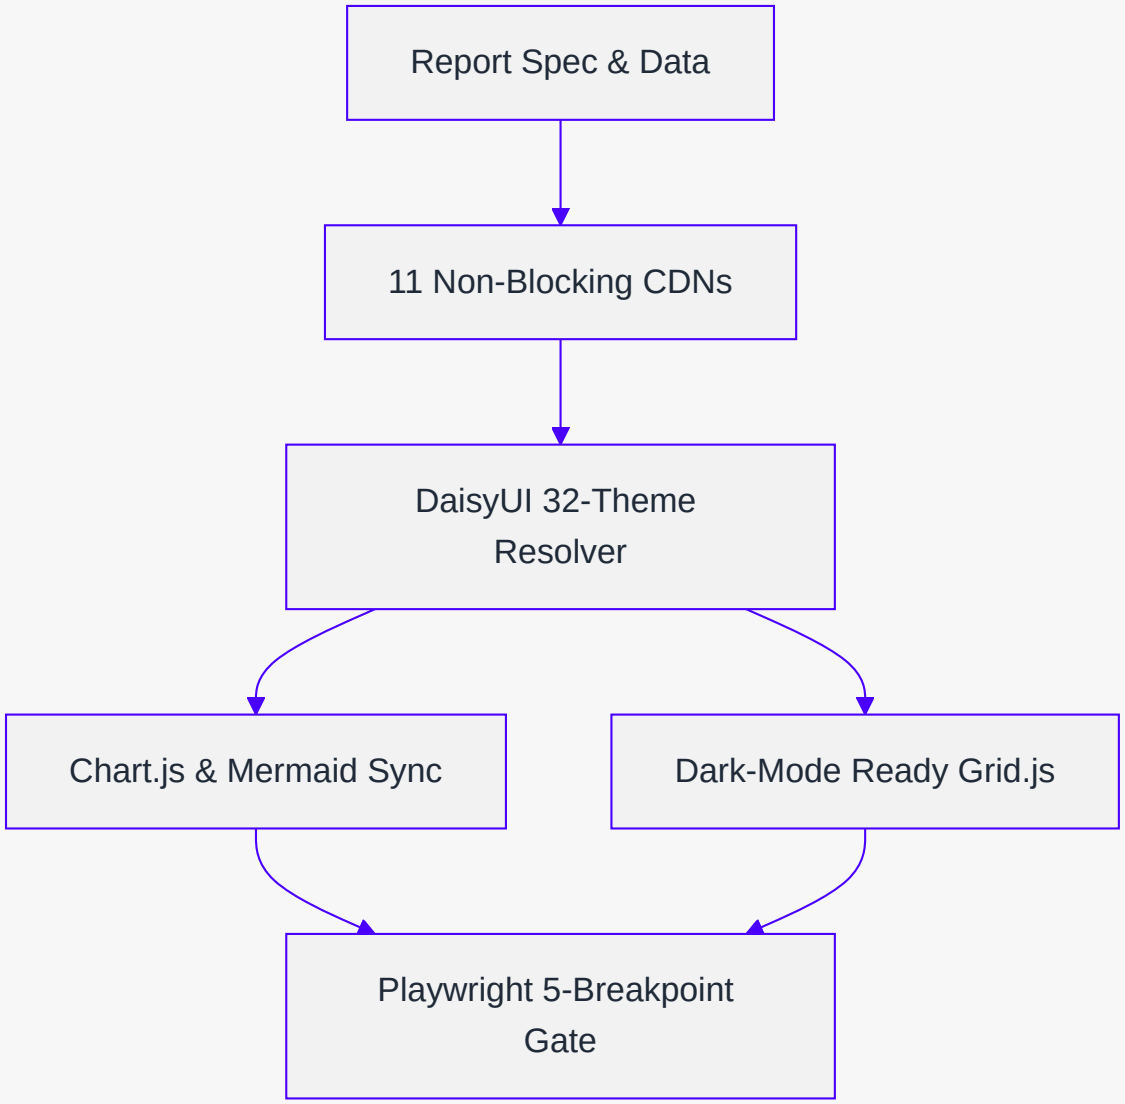

Uses `resolveDaisyUIThemePalette()` for accent, info, and surface contrast

4. Mermaid Diagram Showcase

4.1 Theme-Synchronized Architecture Flowchart (Mermaid)

Re-renders automatically with the active DaisyUI theme's primary, secondary, and surface hex tokens

5. Leaflet Geospatial Map Showcase

5.1 Interactive Vector Marker Map (Leaflet + Esri World Street Map)

Uses Esri ArcGIS World Street Map tiles (`server.arcgisonline.com`) which render cleanly on local `file://` origins without API keys or 403 blocks

6. Grid.js Interactive Data Table Showcase

6.1 Sortable, Searchable & Paginated Table (Light & Dark Theme Adaptive)

Bound to DaisyUI theme surface and text tokens so headers, cells, search input, and pagination stay crisp in both Light and Dark themes:

Library	Category	Loading	Theme Sync	Status
Tailwind CSS	Utility Layout	Non-Blocking	CSS Tokens	Verified
DaisyUI	Components & 32 Themes	Stylesheet	Native	Verified
Lucide Icons	SVG Vector Icons	defer UMD	currentColor	Verified
Alpine.js	Reactive State	defer CDN	Native DOM	Verified
Chart.js	Canvas Charts	defer UMD	Dynamic Palette	Verified

Showing **1** to **5** of **11** results

7. KaTeX Mathematical Typesetting Showcase

7.1 Display & Inline LaTeX Equations (KaTeX)

Typeset client-side via `katex.min.js` and `auto-render.min.js`:

Attention Scaling Formula

$$\text{Attention}(Q, K, V) = \text{softmax}\left(\frac{QK^\top}{\sqrt{d_k}}\right)V$$

Composite Parallel Availability

$$A_{\text{system}} = 1 - \prod_{i=1}^{n}(1 - A_i)$$

8. Marked Client-Side Markdown Showcase

8.1 Live Markdown-to-HTML Parsing (Marked)

Markdown Block Rendered by Marked CDN

- **Automatic TOC Indexing**: Headings inside Markdown blocks automatically receive `id` attributes and appear in the navbar **Contents** dropdown.
- **Inline Formatting**: Supports **bold**, *italics*, `inline code`, and lists without a build step.
- **Zero Blocking**: Parsed on `DOMContentLoaded` before TOC generation.

9. Highlight.js Syntax Formatting Showcase (TypeScript Frontend & Kotlin Backend)

9.1 Frontend Example — TypeScript

TypeScript

Frontend UI state & theme contract highlighted with `language-typescript`:

```typescript
// Frontend TypeScript Type & Theme Dispatcher
export type DaisyUITheme =
  | "corporate"
  | "dark"
  | "synthwave"
  | "dracula"
  | "nord";

export interface FrontendReportProps {
  readonly reportId: string;
  readonly title: string;
  readonly activeTheme: DaisyUITheme;
  readonly enableOfflineBundle: boolean;
}

export function applyFrontendTheme(
  props: FrontendReportProps
): string {
  document.documentElement.dataset.theme =
    props.activeTheme;
  return `Theme [${props.activeTheme}] active`;
}
```

9.2 Backend Example — Kotlin

Kotlin

Backend report service & domain model highlighted with `language-kotlin`:

```kotlin
// Backend Kotlin Domain Model & Service
package io.htmlreport.backend

data class ReportSnapshot(
    val id: String,
    val title: String,
    val cdnCount: Int = 11,
    val verifiedBreakpoints: List<String>
)

class ReportExportService {
    fun buildSnapshot(title: String): ReportSnapshot {
        val breakpoints = listOf("sm", "md", "lg", "xl", "2xl")
        return ReportSnapshot(
            id = "rep-2026-q4",
            title = title,
            verifiedBreakpoints = breakpoints
        )
    }
}
```

10. CSV-Backed HTML Form & Interactive Search (`example.csv`)

example.csv Grid.js + Alpine.js

10.1 CSV-Backed Form Highlight — Built Around `example.csv`

CSV Source Highlighted

This interactive form is built around **`example.csv`** (`examples/example.csv`). Load the CSV file below to unlock search, custom DaisyUI + Alpine.js filters, the Grid.js table, and the Chart.js visualization underneath.

`Empty (0 rows)`

Static Print Snapshot of `example.csv` (8 rows • Interactive file loader & filters hidden in print mode):

id	service	region	rps	latency_ms	status
SRV-101	Edge-Auth-Gateway	eu-west-1	1420	18.4	Healthy
SRV-102	Vector-Search-Index	us-east-1	980	32.1	Healthy
SRV-103	LLM-Router-Primary	eu-central-1	2150	41.6	Scaling
